Some 1,500 acres of land in the site originally staked out many years ago by Dr. Alexander Dowie, founder of the Zionist church, are said to be marked for sale by the overseer when the real estate operators meet the price he is asking. To date he has sold some 200 acres, it is said.

Acquiring the land after Dowie had been forced into a receiver's hands, Voliva has held sway over the church and industries some twenty years. During that time land values along the north shore have been doubled several times, until now he is said to feel inclined to dispose of several tracts to obtain funds for the enlargements of his business activities.

# How I Dress My Hair

By Edna Wallace Hopper

The thousands who see me daily on the stage wonder at my beautiful hair. It is wavy, glossy and abundant. Nearly everyone thinks that some wonderful hairdresser gives it daily care.

Not so—I'm too busy for that I never go to a hairdresser, have never had a Marcel wave. I simply apply twice weekly a hair dress which great experts made for me. It is not sticky, not greasy. Before they made it I never dreamed a liquid could do so much. Now all toilet counters supply it as Edna Wallace Hopper's Wave and Sheen. The price is 75c.

Nothing else I know gives a girl or woman so much added loveliness at once. No one can resist it when she knows. My guarantee comes with each bottle, so it costs you nothing if it doesn't please. Go try it at my expense.

breakfast treat MUFFETS

> are in town! the toasted whole wheat cereal that is sweeping the country

YOU never have tasted anything like Muffets. Their rich golden color, their flaky, ribbon-like texture, and their crisp toasted tang give them an appetite appeal that is irresistible.

And they are as wholesome as they are delicious. Nothing but the choicest ripe whole wheat. Nothing added. Nothing removed. All the vitamins, protein, carbohydrates, minerals and bran that nature prescribes for health and strength.

And such a clever shape! Milk, cream, butter or fruit juice penetrates from top to bottom quickly. Even a child can eat it with a spoon. Easy to slice for sandwiches and as a base for vegetables usually served on toast. Just the right size, when hollowed out, for patty shells or ice cream baskets.

### COMMAND OF THE GUARD

Gov. Small has handed the command of the llinois National Guard division to Mr. Hearst's Chicago representative, Mr. Roy D. Keehn.

The motive of the appointment is not a mystery in the light of Mr. Small's conception of the sovernorship as a source of personal advantage But what does Mr. Hearst want with the Illinois National Guard?

Mr. Keehn has been a lieutenant colonel and judge advocate in the guard for four years. His training and experience in the military profession has consisted of some rudimentary training in the prepararatory school of De Pauw university, the organization of a militia company at the beginning of the Spanish war, which company was not mustered into service, and, in the late war, services as judge advocate on Gen. J. Franklin Bell's staff in New York.

We doubt that Mr. Keehn himself would assert that this experience has equipped him for command of rats and mice in history. There are of a division of line troops, or that it justifies his promotion over the general officer next in order of rank to the retiring major general, who is well known rat migrations. # The Baked Taste Tells

A baked potato tastes like nothing else but a baked potato. Same way with beans. Beans that are really baked taste like nothing else but baked beans. Slow, careful baking in the dry heat of real ovens imparts a distinctive baked flavor.

It is this distinctive baked flavor that makes Heinz Oven-Baked Beans taste so good. They are baked tender, baked mealy, baked golden brown, baked good to eat.

Heinz Beans are labeled "Oven-Baked" because they are baked in real ovens.

# WHY "Our Prices Are Never High"

This store does 50 times as much business as the average chain store or independent food shop (which means that it takes 50 other stores to do the business that this store does), for this reason this store's rental is the lowest in all Chicago.

Because we do a huge volume of business under a single roof, our general operating expense is reduced to a minimum.

A tremendously large and rapid turnover enables us to buy direct from the best sources of supply, and to take advantage of every economy of quantity

Finally, though you enjoy every privilege of a retail establishment in the way of store service, deliveries, etc., you are actually paying no more at this store than you would pay if you bought your food products wholesale.

Actual laboratory tests prove Northern Tissue as sanitary as sealed hospital cotton

Doctors urge its use as a new safeguard to health

HERE is a Bathroom Paper as white as snow—and just as soft. More, a paper that is surgically clean, for it is sterilized 20 times in the making. Hence, this paper is not only gently soothing—but it offers new hygienic protection to safeguard your health. Doctors urge its use.

### Corrects a time-old mistake

Modern medical science has traced many ills to careless hy-gienic methods of our everyday life. Seemingly trivial things that often endanger your health.

That is why Physicians and Surgeons everywhere recommend this sterilized Bathroom Paper. Why it is used in hospitals throughout the United States. Why foremost authorities urge Northern Tissue as a precautionary step — to safe-guard health.

# Now! Real Insurance Protection

for all who rent cars at Hertz Driv-ur-self Stations

When you rent a car from a Hertz Driv-ur-self Station you become one of the insured under a Public Liability insurance policy with limits of \$10,000 and \$20,000 for personal injuries and \$1,000 for property damage. This policy is supplied by one of the largest oldline insurance companies. We further protect yoù against collision damage over \$10.00 to rented car and against loss of car through fire or theft.

This is far greater protection than the majority of private car owners enjoy.

We consider this insurance vitally important for two reasons: First, it gives our patrons a feeling of genuine security-a knowledge that they enjoy real insurance protection during every minute they drive one of our cars. Second, protection is afforded not only the renters of our cars, but also the public, whose good-will we regard as our greatest asset.

Thus-Hertz Driv-urself Stations present further evidence of organized responsibility—a responsibility which does not stop with our patrons, but includes every man, woman and child in this community.

Remember, it is not difficult to rent a car from a Hertz Driv-ur-self Station-we now rent cars on a 100% honor basis. If your name is in the phone book and you are qualified and competent to drive a car, we give you the Key to Hertz Driv-ur-self Service without further identification. If not-give us one reference, that is all.

# CHICAGO rubs elbows with no other metropolis

OF all the world's main markets, Chicago alone commands an independent dominion of far-flung influence—a vast trade empire without a neighboring metropolitan rival.

Chicago looms like a towering peak rising out of fertile plains. Its sweep and scope embrace the heart of America—with 50,000,000 people within a night's ride of this commercial capital.

Southward the nearest metropolis is St. Louis

—284 miles away. Eastward lies Detroit—

272 miles away. Uninfringed upon, magnificent, Chicago stands supreme as the distributing center of the United States.

Among American cities that reckon population by the million, the strategic position of Chicago is unique. New York in its proud place as first city must mark its zone of influence within confining circles. Less than 100 miles away, Philadelphia—third metropolis of the nation—sets up its trade barriers under the shadows of Manhattan's markets. On every hand, New York encounters a network of self-

sufficient cities until its radius reaches the rim of Boston's domain.

Philadelphia, rubbing elbows with New York, confronts on the south Baltimore—America's eighth city—as a commercial contender. And Detroit, motor monarch and newly found in the million niche, shares its sovereignty with Cleveland, fifth city and longestablished maker of many kinds of merchandise.

### Chicago's Leadership

- The greatness of Chicago is the greatness of the Chicago territory—the leadership that has made Chicago
- -the financial center of the Middle West
- —the country's leading industrial center —the world's foremost transportation center
- the largest producer of meat and packing house products in the world
- -the country's greatest produce market
- -the world's greatest food distributing center -the world's greatest lumber market
- -the world's greatest grain market
- -the greatest distributor in the country of dry goods and general merchandise -the largest manufactures and distributor of farm
- —the largest manufactures and distributor of far machinery and equipment
- —the first city in the country in the manufacture of products for export

Born without boundaries, alone in its greatness, the course of Chicago's empire lies westward to the Rocky Mountains and southward to the Gulf. Throughout the Mississippi basin Chicago is regarded as the super-city of the world's wealthiest area.

Chicago has grown to its greatness because it is free from all geographic and economic barriers. In every direction this titan of trade can enlarge its influence to the fullness of its destiny as the master market of America.

Chicago is vital to all America because it is the foremost distributor of the basic commodities of life—meat and produce, lumber and grain, foodstuffs and furniture, dry goods and manufactured products. The roots of Chicagoland's prosperity go deep. Its wealth springs from the wages of its well-paid labor, from the enormous returns on its crops, from the sales of its raw and manufactured products.

The manufacturer who builds his business in the Chicago territory is capitalizing on the biggest present and investing in the greatest future that America holds today.

Morgan Park lightweights prevented the central section from making another clean sweep of the south-central section semi-final games of the City High School Baskethall league last night, nosing out Lindblom 12 to 11 at the Tilden floor. The other central division quintets continued their the same teams: drive for the league championships by winning their games.

Parker, 22 to 10, at the Englewood floor after Tilden lightweights had bested Bowen in a 33 to 24 battle. In the other game at Tilden Phillips heavies were forced to play overtime to beat Morgan Park, 27 to 24.

Lindblom Loses Three Players. Winner of the central division lightweight title and victor in its first semi-final contest, Lindblom was favored to overcome Morgan Park, but the loss of three of its players par-tially accounted for the defeat. The players were barred by Brincipal Harry Keeler for cutting classes, and without them Lindblom seemed unable to launch a smooth working offensive

Parker was not a match for Engle-wood, the Purple taking the lead at the outset with Levinson, Smith and Daulnbanuik leading the assault. James Snyder, a new member of the team, was streng on the defense. Phillips Wins in Overtime.

With the score tied 23 all at the end of regulation time, Gibos and Carey sank baskets in the overtime

Adjustment to be made for the amount note holder and for interest and dividends, the balance due to be paid by the company to the holder in each.

Each note will carry a warrant, exercisable at any time up to February 1, 1937, and detachable only after February 1, 1928, entitling the holder thereof, as provided in the indenture, to purchase the no par Common Stock of the Company at \$20 per share, in the ratio of 20 shares for each \$1000 principal amount of notes.

BUSINESS: The Nichols and Shepard Company, incorporated in Michigan, was founded in 1848 by John Nichols, Sr., and has operated successfully for 79 years in the manufacture and sale of grain threshing machinery. From an initial investment of \$25,000, the Company has grown to its present

PLANT: The Company's plant, located in Battle Creek, Michigan, on the main lines of the Michigan Central and of the Grand Trunk railroads, comprises approximately 600,000 square feet of floor space, which is adequate for contemplated increased production. The plant is equipped with modern machinery arranged for progressive straight line production with resultant low manufacturing costs.

SECURITY: These Notes will be the direct obligations of the Company and will constitute its only funded indebtedness. The indenture securing these Notes will provide that the Company shall not

create any mortgage (except purchase money mortgages), or any other debt maturing longer than one year, so long as any of these Notes are outstanding; and it will further provide that the Company may not pledge any of its customers' notes receivable. The Company will further covenant not to

declare or pay any dividend on its capital stock now issued or subsequently outstanding which will reduce its net current assets (to be defined in the indenture) to an amount less than 150% of the then

outstanding Notes of this issue; nor to declare or pay any dividends except from earnings subsequent

to December 31, 1926. The Company will further agree to maintain current assets at all times equal to at least 200% of its current liabilities so long as any of these Notes are outstanding.

to \$3,149 per \$1,000 note of this issue. Current assets amount to \$5,326,177 as against current liabilities

of \$528,718, a ratio of 10 to 1. Net current assets are \$4,797,458, equivalent to \$2,398 for each \$1,000

annually for the remaining two years, of 120,000 for each of the succeeding two years, and of 120,000 annually for the remaining two years to maturity. The indenture will further provide that 10% of the net earnings of the Company, available for dividends, in addition to the above shall be paid into the sinking fund. It is estimated that this sinking fund will retire over 70% of the issue by maturity, without taking into consideration any conversion of Notes into Preferred Stock.

PURPOSE OF ISSUE: The Proceeds from the sale of these Notes will be used to retire floating indebt-edness and thereby provide additional working capital for increased business.

We offer these notes when, as and if issued and received by us and subject to approval by our counsel, Cutting, Moore and Sidley, Chicago. It is expected that delivery will be made in the form of interim receipts on or about March 1, 1927,

The capitalization of subsidiary and affiliated companies held by the public (but exclusive of participating stock of Clarios River Power Company) consists of \$104,964,933 subsidiary and affiliated companies funded debt and preferred and common stock.

For detailed information in regard to these bonds attention is directed to a letter from Mr. J. I. Mange, President of the Company, which is available on request and which he has summarized in part substantially as follows:

Business and Property: The Company and its subsidiary and affiliated companies own, control, or operate public utility properties which have been in continuous and successful operation for varying periods up to seventy-five (75) years and supply electricity, gas and water to more than 435,-000 consumers, serving a total population estimated to exceed 2,300,000 in 1,000 communities in New York, Pennsylvania, Maryland, Illinois, New Hampshire, Maine, Connecticut, Vermont, Ohio, South Dakota, Kentucky, Tennessee, Indiana and the City of Manila.

Consolidated Earnings: Consolidated earnings for the year ended December 31, 1926, of the Company and subsidiary and affiliated companies excluding earnings of added properties prior to acquisition by the Associated System shows gross earnings of \$29,284,246. The balance, after deducting operating expenses, maintenance, all taxes, amounts applicable to minority common stocks, amortization of discount, interest and preferred dividends (less credit for interest during construction) and depreciation, amounted to \$2,211,594. This balance available for the payment of the \$2 per share Priority dividend on the Class A stock was equal to \$7.21 per share and the amount thereof distributable as Priority and Participating Dividends combined was \$3.62 per share, each amount based on the average number

of shares (305,535) outstanding during the year. The consolidated Gross Earnings for the same period from all properties now included in the Associated Gas and Electric System, irrespective of dates of acquisition, were \$31,467,534, and the balance, after deducting operating expenses, maintenance, all taxes, amounts applicable to minority common stocks and depreciation and all prior annual interest and dividend charges (less credit for interest during construction) on

all securities to remain outstanding upon completion of this and recent financing, consisting of this issue of Class A Stock and \$40,000,000 5½% Convertible Gold Debentures, was \$1,931,-321. This amount, however, reflects no benefit whatever from approximately \$18,000,000 of cash (equal to over \$36 per share on the 500,000 shares of Class A Stock to be outstanding) provided out of the proceeds of this and the recent financing, the investment of which should add according. the investment of which should add appreciably to the earnings applicable to the Class A Stock.

Over 85% of the gross operating revenues for the twelve months ended November 30, 1926, were derived from electric and gas operations.

Dividends: Dividends upon this stock are being regularly paid. Stockholders at the present time have the option of receiving, in lieu of cash, dividends in stock, at the current quarterly rate of 1/40th share of Class A stock for each Class A share held, being at an annual rate of 10%.

Purpose of Issue: The proceeds of the recent issue of 5½% Convertible Gold Debentures, and of this issue of Class A Stock, are being used to acquire additional public utility properties or se-curities deriving their income from such properties, for further simplification of the capital structure of the Associated Gas and Electric System, for new construction and for other corporate purposes. Pending use for the above purposes, the proceeds may be loaned on call or invested in securities of the Associated Gas and Electric System, senior to this issue.

Equity: Based on the estimated value of the Class B stock and current market quotations for the common stock, there is an indicated equity in excess of \$28,000,000.

# St. Louis Refrigerating & Cold Storage Co.

First (Closed) Mortgage 6% Sinking Fund Gold Bonds Dated January 1, 1927-Due January 1, 1942 Price 100 and interest, to yield 6.00%

The Company agrees to pay interest without deduction for any normal Federal Income Tax not exceeding 2%, which the Company or the Trustees may be required or permitted to pay at the source.

The following information is taken from official sources:

Company: St. Louis Refrigerating & Cold Storage Company, incorporated under the laws of Missouri in 1899, is engaged principally in the storage of perishable foods. In addition, it sells refrigeration, under a franchise granted by the City of St. Louis, to purchasers in the entire downtown business district of the city, including the Municipal Market, which is one of its largest customers. The Company also sells manufactured ice under a yearly contract to a local distributor. The plant, situated within a few blocks of six important railroad terminals, is provided with private sidings, thus affording excellent transportation facilities directly to its loading platforms.

Due to its location at the gateway of one of the largest food producing areas in the United States and its favorable railroad transportation facilities, St. Louis is growing rapidly as one of the most important distributing centers for food products. The cold storage industry is a necessary element in the food supply of large cities and consequently an essential one to St. Louis.

Earnings: The average annual net earnings available for Bond interest, depreciation, Federal taxes and dividends for the three years and six months ended October 30, 1926, have been \$162,216, or over 2.7 times the interest on these Bonds.

Security: These Bonds will be secured, in the opinion of counsel, by a direct first (closed) mortgage on all the fixed assets of the Company, including real estate, plants and equipment, independently appraised at a sound depreciated value of over \$2,165,282, including land valued at over \$330,000. In addition to its physical properties the Company owns valuable franchise rights permitting the maintenance and operation of the street pipe line refrigerating system.

Capitalization

(After giving effect to present financing)

First (Closed) Mortgage 6% Sinking Fund Gold Bonds (this issue)..... Preferred Stock, 6% Cumulative ... Common Stock (\$100 par value) ...

Assets: The fixed assets of the Company, based on independent appraisals, show a sound depreciated value of over \$2,200 for each \$1,000 Bond, exclusive of any value assignable to the above mentioned franchise rights. The total net assets based on the independent appraisals amount to \$3,106,326, or over \$3,100 for each \$1,000 Bond.

Purpose of Issue: The proceeds of these Bonds will be used to effect the retirement of existing funded debt, to reduce current loans and to reimburse the treasury of the Company for expenditures

incurred in the construction of additions, and for

Sinking Fund: The Indenture of Mortgage under which the Bonds will be issued will provide for equal annual payments into the sinking fund, to be applied to the retirement of Bonds by purchase or by call, so as to retire approximately 40% of this entire issue before maturity, even at the call price.

Management: The business of the Company has been under the same management for 17 years, and it has a long and successful record of good service.

We offer these Bonds for delivery when, as and if issued and approved by counsel and accepted by us. It is expected that delivery of definitive bonds will be made on or about February 25, 1927.

Salient features are summarized by Mr. W. W. Sunderland, President of the Corporation:

Business and Property: Western Tablet & Sta-Business and Property: Western Tablet & Stationery Corporation, a Delaware corporation, owns and operates plants for the manufacture of stationery and paper tablets at St. Joseph, Missouri, Kalamazoo, Michigan, Richmond, Virginia, Holyoke, Massachusetts, West Carrollton, Ohio, Minneapolis, Minnesota, and Green Bay, Wisconsin. All of these plants are strategically located for the purchase of raw materials or economic distribution of their products. The main plants of the Corporation were acquired from Western Tablet & Stationery Company and Kalamazoo Stationery Company. These two companies were among the principal and most successful manufacturers of stationery and tablets in the country. Plants of both companies are modern, well Plants of both companies are modern, well equipped and efficient manufacturing units. The equipped and efficient manufacturing units. The Corporation will continue the manufacture of school and writing tablets, composition books, loose-leaf ruled paper, loose-leaf binders, package paper for school and commercial purposes, stationery and envelopes for commercial and social uses, a complete line of greeting cards for all occasions and holiday boxes for gifts. Important among its products is the widely advertised and well established brand of HyTONE envelopes, tablets and stationery. Its products are favorably known to the wholesale and retail trade and to consumers throughout the country.

Security: These First Mortgage 15-Year 6%. Sinking Fund Gold Bonds, in the opinion of counsel, are secured by a first mortgage on all of the plants and fixed properties of the Corporation. These fixed properties, as appraised by Sanderson & Porter, had a depreciated value of \$3,091,181 at June 30, 1926. Based on this appraisal and including additions to September 30, 1926, Tess accruing depreciation, these properties had at that date a depreciated value in excess of \$3,080,000, or more than 1½ times the principal amount of these bonds. The value of cuts, dies and electrotypes has been determined by Messrs. Ernst & Ernst as of September 30, 1926, in excess of \$230,000. Giving effect to the present financing, net quick assets equal \$2,297,059 and net tangible assets are \$5,629,991, or \$2,814 for each \$1,000 bond of this issue.

Earnings: For the 7 fiscal years and 10 months ended September 30, 1926, net earnings of the properties owned by the Corporation after depreciation but before interest and Federal taxes have averaged \$595,611.73 or over 4¾ times the total annual interest charges on these bonds. For the 10 months ended September 30, 1926, net earnings on the same basis were \$759,296.43 or at the rate of over 6 times the annual interest charges on this issue of bonds.

Indenture Provisions: Additional First Moregage Bonds may be issued in amounts equivalent to 50% of the cost or fair value, whichever is lower, of additional property, or betterments and improvements, provided the average net earnings, as defined in the indenture, for three fiscal years or for any 36 consecutive months of the 40 months next preceding the application therefor shall have been at least four times the annual interest requirements on all of the bonds outstanding and to be issued.

Sinking Fund: The Mortgage provides for a sinking fund sufficient to retire \$50,000 principal amount of bonds each year during the first 5 years, \$100,000 principal amount of bonds each year during the succeeding 5 years and \$150,000 principal amount of bonds each year during the last 4 years. This sinking fund, except to the extent paid in bonds, will be applicable to the retirement and cancellation of bonds through purchases in the open market or call by lot at not exceeding the current redemption prices. When additional bonds are issued, future sinking fund payments will be increased proportionately.

Purpose of Issue: These bonds are being issued for the purpose of paying in part for the properties, retiring existing funded debt and providing additional working capital.

Management: The management of Western Tablet & Stationery Corporation continues in the hands of executives and others identified with them who have been responsible for the operation of the business of the constituent plants.

Your money, in a savings bank, will earn 3% interest, compounded semi-annually. When invested in municipal bonds, it will bring you a return of 4% or 5%. Safe public utility and industrial bonds will bring you a return of from 5% to a little over 6%.

None of these investments, however, offers opportunity for profit, aside from possible slight gains due to periodic price changes. Profits should not be asked nor expected from such investments, for profit-making is not their function. They represent the rental of money at a fixed rate of return and, as such, play an important part in the investment program of a careful investor.

But one must look farther for profitmaking investments. One finds them in the stocks of sound, well-financed and carefully managed industrial enterprises. The time to buy such stocks is when the companies they represent are facing a period of expansion, with a record behind them of profitable operation.

Our booklet, "Sharing in the Profits of American Industry," will assist you in planning an investment program which will bring in the largest returns possible, with a high degree of safety. We shall be pleased to send you a copy on request.

A list of firms having offices in the Lake Michigan Building and its immediate vicinity on Michigan Avenue reads like a roster of the Nation's business. Some of our greatest national corporations and leading local enterprises are represented. These associations, as well as the outstanding advantages of the location, and the absence of the depressing dinginess of some older sections, combine to create an environment that will bring prestige to your business and appeal to those who call at your offices.

By VIRGINIA TRACY.

The March, employed in the scenario department of Hertsog's Perfection motion code at Fort Lee, New Jersey, learns with sorrow that Henry Horner, the head partment, has been fired by Lyman Hertsog, son of the owner of the studio. Every is that Lyman is lealous of Henry because he is in love with Dulcie Jayne, the studio, but Dulcie seems to prefer her director, Daniel K. Leland. Hertsog surgests to Lyman that they feature Leilahd as an actor as well as a and this causes a quarrel between father and son. Old Mr. Hertsog suffers a stroke sery as a result and Lyman is left in charge of the studio.

architect, deliberately sacrificed his valuable collection of Japanese prints to prevent her getting money from him is the charge of his wife, Mrs. Miriam Noel Wright, according to papers filed in Supreme court today.

Claiming Wright never repaid her a \$25,000 loan, and that he owes \$15,000 under a decree of separate maintenance awarded her in Wisconsin last September, the wife obtained a writ of attachment, and when the sheriff attempted to serve the paper he discovered Wright had no equity in the proceeds of an auction sale of his prints, having borrowed \$45,076 from the Bank of Wisconsin and \$3,500 from Joseph M. Boyd.

The collection of prints was auctioned at the Anderson galleries, Jan. 6 and 7, bringing \$36,975, which Mitchell Kennerly, president of the galleries and a friend of Wright, told Justice Lydon was far below the actual worth of the prints, due to the "unpleasant notoriety given the owner."

Justice Lydon refused to vacate the attachment, on the ground Wright was not the proper person to make such a motion.
